

GOAL: INVITE 16 MILLION MORE PEOPLE TO MEET JESUS DIGITALLY IN 2026

The READ CARRY SHARE® App is the digital expression of our pocket-sized Gospel of John, created so that seekers can meet Jesus through God's Word and Christ-followers can digitally share the Gospel. It is a lifeline in some of the world's most challenging places, placing the Good News directly into the hands of people in more than 140 countries and territories.

In cities like Rajshahi, Bangladesh, the reach has been extraordinary. A third of the city's population (over 332,000 people) has accessed the Gospel through the app. Similar results are emerging in Tehran, Iran (over 432,000 downloads), Sana'a, Yemen (nearly 229,000), and Havana, Cuba, where spiritual hunger continues to break through barriers of persecution and isolation.

The READ CARRY SHARE® App has been downloaded over 20 Million times.

Each number tells a story of hope. In countries where owning a Bible can bring risk, such as Yemen, Iran, Sudan, and Cuba, hundreds of thousands of people are quietly encountering Jesus in their heart language. In Bangladesh, four cities alone have seen more than 1.7 million total downloads. Across the Middle East and North Africa, digital evangelism is opening doors where traditional outreach cannot go.

In the coming year, we are praying that 16 million more people will download and experience God's Word. Each day, an average of 36,000 people engage with the words of Jesus through text, audio, and video. And by the end of next year, our goal is to invite 76,000 people daily.

These results are possible only by God's grace and direction. As we seek Him, we are preparing to launch READ CARRY SHARE® App 2.0, designed to invite even more people worldwide:

Be a part of inviting everyone to meet Jesus.

- Accessible to nearly everyone – Expanded language options will allow over 93% of the world's population to read in their heart language.
- Available globally – The app will launch on seven additional app stores, reaching over 90% of the planet.
- Built for security – Moving to censor-resistant servers used by trusted ministries will ensure safe, stable access.
- Connecting believers – A new community feature will link users with local churches, partner ministries, and other believers in their language and region, opening doors to discipleship.

In the next three years, The League seeks to invite 100 million people across the world with the Gospel of John, the Living Word of God. You can help invite 16 million people digitally next year as we work together. Through innovation, faith, and God's power, the READ CARRY SHARE® App is transforming how the Gospel reaches the world, one download, one heart, and one life at a time.

A gift of \$50,000 moves your ministry closer to inviting 16 million people to meet Jesus digitally.

HOW MANY DO YOU WANT TO REACH?
